RD

---

Good morning - On Thursday, February 6th there will be a community wide fire alarm inspection and certification project that will affect all residents. There will be intermittent alarms sounding off in various areas of the property from approx. 9am to approx. 12 Noon. Residents need not be alarmed at the sound of the bells as this is only a drill. The Palm Springs Fire Department requires that the alarms be checked annually to ensure that they will perform as intended in the case of an emergency.

The Association continues to honor its commitment to the safety and welfare of its residents by following the mandates of the proper authorities. The entire exercise should have little to no effect on your daily activities.

Thank you for your cooperation.
