RD

---

Dear Owners and Residents - As part of the Association's long-term goal to expand internet service options for the community, Frontier Communications will begin installation of new fiber optic infrastructure starting tomorrow.

Technicians will begin working on the interior of the property, starting from the south side. For your safety and to ensure the project proceeds smoothly, we kindly ask that you do not interfere with the work, avoid entering active work areas, and refrain from touching any equipment or cabling.

We appreciate your cooperation and look forward to the enhanced connectivity this upgrade will bring to the community.

Thank you,  
Rhonda
